work and take some digging, if you find the real person you can direct message them and alert them that their image is being used for scamming. I was selected for a summer internship 2016. I tried to
be very open while filling the preference form: I choose many products as my favorite products and I said I'm open about the team I want to join. I even was very open in the location and start date to get host matching interviews (I negotiated the start date in the interview until both me and my host were happy.) You could ask your recruiter to review
your form (there are very cool and could help you a lot since they have a bigger experience). Do a search on the potential host (do a search on the team to find nice and deep questions to impress your host). Prepare well your resume. You are very likely
not going to get algorithm/data structure questions like in the first round. It's going to be just some friendly chat if you are lucky. If your potential team is working on something like machine learning, expect that they are going to ask you questions about machine learning, courses related to machine learning you have and relevant experience
(projects, internship). Of course you have to study that before the interview. Take as long time as you need if you feel rusty. It takes some time to get ready for the host matching (it's less than the technical interview) but it's worth it of course. How do I fill out the form of DU CIC?
