Capitalcare family practice clifton park

CapitalCare Family Practice Clifton Park is a healthcare provider that welcomes patients of all ages for primary care, preventive medicine, and continuity of care. The practice offers various services including annual physicals, sick visits, and wellness visits. It has been recognized by the National Committee for Quality Assurance as a Patient-Centered Medical Home, which highlights its commitment to quality and compassionate healthcare. The practice provides telemedicine visits and a patient portal called mycareDOT, allowing patients to connect with their doctor and medical record online securely. The office is closed daily from 12:00 pm to 1:00 pm, but patients are advised to call ahead if they are ill to avoid infecting others. As the largest independent multispecialty medical group in the Capital Region, Community Care Physicians (CCP) addresses individual patient needs for primary care, specialty care, urgent care, and wellness services. The practice is led by physicians who work closely with patients and each other to provide premier medical care. CCP connects patients to their doctor and doctors to each other, ensuring better communication among the care team. With over 30 medical specialties under one family, CCP provides comprehensive care within a shared electronic health record system. This allows for seamless collaboration among doctors and access to patient information at any time. The practice is also committed to improving patient lives through its physician-led organization model, which prioritizes patients' needs above all else. Our Technical and Administrative Support Management Services Organization is designed to free up physicians and office teams to focus solely on patient care. As one of the largest independent multispecialty medical groups in the Capital Region of NY, we serve over 1,600 employees across 70 practices in six counties. With nearly 40 years of experience, we demonstrate professionalism and expertise at every level. Our comprehensive range of medical services is centered around providing patient-centered, compassionate care based on mutual trust and communication. Whether you call us Community Care Physicians or CCP, we are recognized for our commitment to quality patient care, incorporating advanced technologies, community activities, and continually improving your healthcare experience. We appreciate the opportunity to share more about Community Care Physicians and welcome you. As a physician-owned and managed organization, we are guided by practicing physicians daily and focus on creating an optimal experience for our patients and staff. We have received numerous awards for being a great place to work and have been recognized for our high-quality care. Join us in driving quality, inspiring compassion, and contributing to our community, one patient at a time. Jennifer has always been passionate about women's health, pediatrics, and preventative care. She chose a career in healthcare because she loves the continuous learning experience from patients and staying updated on medical advancements. Jennifer enjoys being involved in her patients' lifelong health journey. Originally from Scotia, Jennifer values time spent with her family and golden retriever. In her free time, she enjoys hiking, running, spending outdoors, and traveling. Dr. Krista Morales is a board-certified family physician who specializes in primary care. She earned her Doctor of Medicine from Albany Medical College and completed a family medicine residency at Albany Medical Center. Dr. Morales was inspired to pursue a career in family medicine due to its emphasis on preventive care and continuity of patient relationships. As a research assistant, Dr. Morales developed an appreciation for scientific research, which led her to pursue a career in medicine. She is particularly interested in women's health, pediatrics, newborn care, preventative medicine, behavioral health, weight management, and managing chronic diseases such as diabetes and hypertension. Dr. Morales believes that listening to patients' concerns is essential when providing care. Originally from San Antonio, TX, Dr. Morales now resides in Ballston Lake, NY. In her free time, she enjoys ballet, gardening, hiking, yoga, and spending time with loved ones. x.com. Information on supported browsers can be found in our Help Center. Jonathan Dore is a certified physician assistant with a Master of Science in Physician Assistant Studies from Bryant University and a Bachelor of Science in clinical dietetics and nutrition from the University of Pittsburgh. He chose family medicine due to its scope of practice, which allows him to care for patients across all ages. Jonathan also focuses on preventing chronic diseases, musculoskeletal conditions, and sports medicine. Outside of medicine, he enjoys CrossFit, hiking, and playing various instruments.
